## Home Visit Laboratory Services

### Summer 2012 Newsletter and Updates

Since 2007 Apex Laboratory has provided in home laboratory services to more than 70,000 patients, 3,500 healthcare providers and 200 home health agencies in Broward, Palm Beach, Martin and St. Lucie counties.

#### Laboratory Services at Home

Apex Laboratory, Inc. provides in home laboratory services for patients who are unable to independently transport themselves to and from the laboratory and/or physicians office for a simple lab test. Patients and their family members no longer have to worry about finding transportation or struggling to make an appointment for a simple lab test.

#### Same Day Results

Test results for most tests are available the evening of the scheduled blood draw. Routine results will be faxed and are available online at [www.apexlaboratory.com](http://www.apexlaboratory.com). Critical results will be called into the ordering physician as soon as they are made available.

#### Group Practices

Apex offers group practices the option to link multiple health care providers to one account. Group Practice users may view results and schedule home visits for all patients associated with the practice without having to log in and out under different accounts.
